

Neighborhood Bird Scavenger hunt

Birds are unique organisms that have many different adaptations and characteristics. In this scavenger hunt you will be able to explore those adaptations and characteristics! We have a checklist of 9 different local birds that you can find in your very own neighborhood! Check off each bird as you see them and make any notes or observations that you make on our scavenger hunt. Remember to be safe and aware off your surroundings and always have supervision from your guardian!

Bird	Notes
<input data-bbox="73 640 129 693" type="checkbox"/> 	
<input data-bbox="73 934 129 987" type="checkbox"/>
